## EDUCATION

### Kazakhstan University of Technology and Business

*Bachelor's Degree in Information Technology*

Astana, Kazakhstan

September 2024 – June 2027

### Higher College of Apec Petrotechnic

*Associate's in Information Technology*

Atyrau, Kazakhstan

September 2020 – June 2024

## EXPERIENCE

### Software Engineer

*Global Industrial Construction*

April 2024 – Present

Atyrau, Kazakhstan (remote)

- Developed and maintained the company website using Next.js, React, and TypeScript, ensuring optimal performance, scalability, and security.
- Implemented modern UI/UX solutions with TailwindCSS, improving user experience and navigation flow.
- Designed and integrated custom UI components, icons, and responsive layouts based on Figma and user research.
- Converted design prototypes into fully responsive, production-ready web pages using React, TailwindCSS, and TypeScript within the Next.js framework.
- Managed website functionality, version control, and performance optimization through CI/CD pipelines (GitHub Actions, Jenkins) and automated deployment.
- Containerized the web application with Docker and orchestrated deployments using Kubernetes and Helm for scalability across environments.
- Implemented infrastructure automation with Terraform and Ansible, improving deployment consistency and reducing manual configuration.
- Monitored application performance and availability with Prometheus and Grafana, ensuring reliability and quick incident response.
- Administered the company's email domain, enabling domain-based professional communication (e.g., [d.aizharykov@gi-construction.kz](mailto:d.aizharykov@gi-construction.kz)).
- Created and published web content, while actively maintaining the company's presence on Instagram, LinkedIn, and other platforms.
- Designed and developed visual assets for digital marketing campaigns, ensuring brand consistency across all media.

### Software Engineer

*West Development Company*

August 2023 – September 2024

Karabatan, Atyrau, Kazakhstan

- Maintaining an old website until 2024
- Creation and redesign of the site with inclusion of content from the old site
- Using frameworks as well as plugins with open source to use animations and improve UI/UX elements.s)
- Supporting new content for the new website as well as migrating all old content to the new design.)
- Using admin panels such as Plesk to manage all hosting on which the domain is installed )
- Using admin panels such as Plesk to manage all hosting on which the domain is installed )

## ACHIEVEMENTS / CERTIFICATES

Jusan Singularity — TechOrda Program | *DevOps Engineer*

August 2025

WorldSkills Apec 2023 | *1st place*

March 2023

WorldSkills Atyrau 2023 | *1st place*

April 2023

WorldSkills Kazakhstan 2023 | *Nomination "Best Specialist"*

November 2023

## TECHNICAL SKILLS

**Languages:** JavaScript, TypeScript, Python

**Frameworks:** React, Node.js, Vue, FastAPI, Bootstrap

**Frontend Tools:** TailwindCSS, Redux, Next.js, Vite, Webpack, Figma

**Developer Tools:** Git, Docker, VS Code, Visual Studio, PyCharm, IntelliJ, Postman, Nginx, Linux, Bash

**Libraries:** Express, Jquery, pandas

**DevOps Tools:** Kubernetes, Helm, Ansible, Terraform, Jenkins, GitHub Actions, AWS, Prometheus, Grafana
